

In a time of rapid change in the financial sector, Masters Le Mesurier brings together a team of Chartered Accountants and Certified Practising Accountants with established credentials in assisting organisations to revitalise and effectively manage their finance functions.

With business needs rapidly changing, finance functions within an organisation are now called upon to provide information to business units in new and diverse forms. This requires a finance function that is not only adaptable to change, but one that is able to be seen as a 'service function' to the rest of its organisation. Masters Le Mesurier consultants have demonstrated experience in assisting finance functions to reinvent themselves and become leading edge providers of solutions for their organisations.

Our capabilities cover the following:

- Harmonisation of Australian Accounting Standards with International Accounting Standards
- Accounting Policy Advice, Development and Implementation
- Financial Statement Preparation
- Management Reporting
- Business Process Redesign
- Training
- Annual Report and Company Secretarial.
- Financial Modelling
- Specifications for Financial Management Systems
- Implementation of Financial Systems
- Review and re-design of chart of accounts
- Cash flow modelling
- Financial Forecasting
- Assistance with recruitment
- Budgeting
- Activity Based Costing
